## PROCESS

### STAGE - 1

- You fill out the inquiry form: We have an easy-to-fill form to allow us to get your details for faster and easier communication.
- The client relations team calls or emails you: We have a team working around the clock and we guarantee the fastest response after you contact us.

### STAGE - 2

- Understanding of requirements
- Ballpark estimate
- Proposal: our team prepares and presents a comprehensive proposal for the project based on the client's request.
- Approval to go ahead: After submitting the proposal, our team will discuss it with the client and if approved, it is all system go.

### STAGE - 3

- Confirm pricing: We appreciate that pricing is the most sensitive issue in outsourcing and that's why we advise our clients to understand all the details.
- Contracting & SLA sign-off: Once the pricing and all other aspects of engagement including SLA have been sorted, our team and the client sign the contract.

### STAGE - 4

- Resource deployment & training: Once the contract signing is complete, we commence resource mobilization and deployment to ensure everything needed is in place.
- Project kick-off meeting: after training, we organize a project-kick-off meeting with every one who shall be working on this project.

### STAGE - 5

- Project execution & management: We start work on the project with the goal to achieve the objectives set by the team. Our team is highly experienced in financial projects, and we use our expertise to ensure everything moves like clockwork.
- On-going reporting & feedback: As the project continues, we use the identified channels for real-time reporting and feedback with the client.
